With various experience in organizing, designing and curating events, I developed my problem-solving, team-coordination and organization skills. I am keen on learning alternative methods and widening perspectives through interdisciplinary approach.

Education

RSAW Student Mentoring Programme 2021 - 2022

Strige Treglown, Cardiff (United Kingdom)

Mentored by Gareth Brown

Soft skills: construction and professional practice knowledge

- » Developing understanding on building construction and techniques
- » Widening understanding on the role of architects and other professionals of the built environment

Bachelor of Architecture 2019 - 2022

Welsh School of Architecture, Cardiff (United Kingdom)

Soft skills: Graphical and oral communication, Self-management, Creativity

Currently working at First Class Honours

Module based

Year 3: Architectural Design 3 (82) Architectural Technology 3 (72); Issues in Contemporary Architecture (72); Practice Management and Economics (73)

- » **Casa delle Donne Castelfranco Veneto:** Imagery project focusing on Women's Empowerment through the eyes of women writers of the past and the present. The project aims to respond to the visual and physical boundaries of Castelfranco Veneto (Italy) through the theory of the fold.

Year 2: Architecture Design 2 (76); Architectural Technology 2 (70); Architecture in Context (74)

- » **Llandaff Theme Park:** Imagery project focusing on Health and Social Masterplanning. The project aims to resolve the disconnectivity of Llandaff Fields (Cardiff, Wales) in its urban setting and the lack of sport, leisure and non-sport uses through the theory of architectural parkscape.
- » **Play to see:** Imagery project focusing on Visual Impairment. The aim is to explore various social activities through playing that can unfold moments of acceptance of one visually impaired. The project explores the use of nets through the sense of touch.

Non-module based:

- » **Team member of the Vertical Studio 'Making the Exhibition' Unit's curation team:** Developing narrative through diverse units of the exhibition
- » **Winning entry at the BSc2 Sanctuary Competition:** Responding to mental and physical difficulties in Primary school & Exploring landscape-sensitive architecture.
- » **Interdisciplinary lectures and workshops taken on contemporary design issues hold by designers of diverse fields:** Widening perspectives & Developing knowledge on wider professional practice

Further Physics and Mathematics course 2018-2019

Treffort, Budapest (Hungary)

Soft skills: Analytical and Problem-solving skills

- » Applying knowledge beyond curriculum level
- » Developing efficiency and creative problem solving and analytical skills
